

Bacteriostatic Water

10 ml · Reconstitution solvent

Bacteriostatic water containing 0.9% benzyl alcohol, supplied as a reconstitution solvent for lyophilised research compounds.

BATCH IDENTITY

PRODUCT	Bacteriostatic Water	BATCH NO.	BAC-2607-011
STRENGTH	10 ml	MANUFACTURED	2026-07
APPEARANCE	Clear, colourless solution	STORAGE	15–25 °C, protect from light

ANALYTICAL RESULTS (HPLC)

TEST	SPECIFICATION	RESULT
Identity	Consistent with reference standard	Pass
Purity (HPLC)	≥ 99%	USP-grade
Appearance	Clear, colourless solution	Conforms

PRODUCT SPECIFICATIONS

Research category	Reconstitution solvent
Molecular formula	H2O + 0.9% C7H8O
Molecular weight	n/a (solvent)
CAS number	—
Solubility	Miscible with water
Packaging	10 ml sterile multi-dose vial
Storage	15–25 °C, protect from light

For laboratory research use only. This material is supplied exclusively for in-vitro analytical characterisation and research. It is not intended for human or veterinary consumption, administration, diagnosis, treatment or therapeutic use. This certificate documents the identity and purity of the stated batch at the point of release.
