

BPC-157

10 mg · Synthetic pentadecapeptide

BPC-157 is a synthetic pentadecapeptide fragment supplied exclusively for in-vitro research and analytical characterisation.

BATCH IDENTITY

PRODUCT	BPC-157	BATCH NO.	BPC-2607-004
STRENGTH	10 mg	MANUFACTURED	2026-07
APPEARANCE	White lyophilised powder	STORAGE	-20 °C, protect from light

ANALYTICAL RESULTS (HPLC)

TEST	SPECIFICATION	RESULT
Identity	Consistent with reference standard	Pass
Purity (HPLC)	≥ 99%	99% +
Appearance	White lyophilised powder	Conforms

PRODUCT SPECIFICATIONS

Research category	Synthetic pentadecapeptide
Molecular formula	C62H98N16O22
Molecular weight	1419.5 g/mol
CAS number	137525-51-0
Solubility	Soluble in bacteriostatic water
Packaging	10 mg / sterile amber vial
Storage	-20 °C, protect from light

For laboratory research use only. This material is supplied exclusively for in-vitro analytical characterisation and research. It is not intended for human or veterinary consumption, administration, diagnosis, treatment or therapeutic use. This certificate documents the identity and purity of the stated batch at the point of release.
