

CJC-1295 + Ipamorelin

20 mg (10 mg + 10 mg) · Blended synthetic peptide preparation

CJC-1295 + Ipamorelin is a blended preparation of 10 mg CJC-1295 No DAC and 10 mg Ipamorelin for in-vitro laboratory research.

BATCH IDENTITY

PRODUCT	CJC-1295 + Ipamorelin	BATCH NO.	CJCIPA-2608-013
STRENGTH	20 mg (10 mg + 10 mg)	MANUFACTURED	2026-08
APPEARANCE	White lyophilised powder	STORAGE	-20 °C, protect from light

ANALYTICAL RESULTS (HPLC)

TEST	SPECIFICATION	RESULT
Identity	Consistent with reference standard	Pass
Purity (HPLC)	≥ 99%	99% +
Appearance	White lyophilised powder	Conforms

PRODUCT SPECIFICATIONS

Research category	Blended synthetic peptide preparation
Molecular formula	CJC-1295 No DAC (C152H252N44O42) + Ipamorelin (C38H49N9O5)
Molecular weight	Blend — 3367.9 + 711.9 g/mol
CAS number	863288-34-0 / 170851-70-4
Solubility	Soluble in bacteriostatic water
Packaging	20 mg total / sterile amber vial (10 mg + 10 mg)
Storage	-20 °C, protect from light

For laboratory research use only. This material is supplied exclusively for in-vitro analytical characterisation and research. It is not intended for human or veterinary consumption, administration, diagnosis, treatment or therapeutic use. This certificate documents the identity and purity of the stated batch at the point of release.
